

ATWOOD NOW AT
HIS DESTINATION

Expected to Finish Long Flight
Early This Afternoon.

DELAYED BY ENGINE TROUBLE

Travels at Astonishing Clip Down
Hudson, but is Compelled to
Stop for Night Almost in
Sight of Goal.

New York, Aug. 25.—Harry N. Atwood was expected to finish his aerial trip from St. Louis at Sheepshead Bay this afternoon.

He could easily have done so yesterday had not his engine "acted up." At 11:30 in the forenoon when the biplane was rounding Hook Mountain, thirty-one miles from New York, on what was to be the last lap of the sprint down the Hudson, the connecting rod flew loose and began trying to beat the machine to pieces. Atwood glided down and hitched his mount to an apple tree two miles and a half north of Nyack. It was late before the engine was fixed.

Atwood has traveled 1,245 miles and has broken the record for an unbroken series of distance flights. The previous mark was 1,164 miles.

The voyager flashed down the Hudson river at a fifty miles gait. He passed Stuyvesant, Hudson, Catskill Point, Kingston and Staatsburg, flying serenely and was sighted by Poughkeepsie at 8:59 o'clock. The sky there was cloudy and the breeze was trying to irritate the placid Hudson. As Atwood approached the high cantilever bridge at Poughkeepsie he ducked and shot under it close to the water. He was keeping an even course about 200 feet above the river when Poughkeepsie, tooting frantically from every factory whistle, saw the last of him. He had been in view only three minutes.

He rounded Storm King mountain without mishap, sailed by West Point, passed over the Dick mansion at Garrison and came to earth on a level spot back of the New York Central railroad between Garrison and Cold Springs. In an hour and three quarters the engine seemed to be placated and at 11:05 o'clock Atwood set forth once more. His destination was New York. At full speed he cleft the air over the middle of the river and in twenty-five minutes was abreast of Tarrytown.

But three minutes later the engine that had squeaked in all the voyage from St. Louis until this time attempted suicide and Atwood descended to observe that it was pretty tough thus having to give up the hope of an eleven day trip when almost in sight of the spires of New York and the ocean.

Detroit, Mich., Aug. 25.—A special report from Midland, Ont., says the steamer C. C. Martin of Midland, with a crew of ten, was probably lost in the storm on Georgian bay.

The barge Albatross, in tow of the Martin, sank during the storm, but its crew reached the lighthouse at the mouth of the French river in a yawl boat. Nothing has been heard from the Martin.

WOMEN TO AID McNAMARA

Washington Workers Aroused by
Speech by Chicago Congressman.

Washington, Aug. 25.—Women and girls employed in the bureau of engraving and printing will raise money for the assistance of John J. McNamara, secretary of the Structural Iron Workers' union, in jail at Los Angeles, Cal., charged with dynamiting the Los Angeles Times building.

Sympathies of the women were aroused by a speech made to them by Representative Frank Buchanan of Chicago. Mr. Buchanan read a letter from McNamara in which the labor leader made the most complete denial of the charges against him that has been made public.

ONLY QUALIFIED
VOTERS ALLOWED
AT SCHOOL ELECTION

Ann Arbor, August 25.—School Commissioner Essery has received a letter from the Superintendent of Public Instruction in which he writes that only qualified voters, are entitled to vote at school elections and hold office as School Directors, etc. He explains that by "qualified voters" he means only those who have full citizenship papers, not persons who have only declared their intentions, on first papers as Declarations are usually called.

In this connection it will be of importance to many to know that Sept. 3d is the last day on which Petitions for Naturalization can be filed for the December hearing in the Circuit Court. Under the present order of Court fixing the days of hearing, the December hearing will be the last hearing before the spring election. This may mean a lot to many in Washtenaw County, if there should be any contests at the election.

At the October hearing there will be 32 petitions to be heard of which the majority, are of persons whose fathers took out their first papers but never completed their citizenship, before their foreign born children became of age. There are still many such cases in Washtenaw County, and these persons will with each succeeding year find it more difficult to get in under the amended law. At present it is still very easy if good faith can be shown and the proper evidence can be furnished.

In this same category, that is persons not entitled to vote come all persons who have taken out their first papers since May 8th, 1892. At this time the amended state law went into effect. This is often not considered by many who vote in good faith, but would be considered in a contested election.

The new index of persons who have declared their intentions and were naturalized, which was ordered by the Board of Supervisors last fall, is proving of great convenience. It is a big job, and County Clerk Charles L. Miller has it now completed as far back as 1856, and is daily adding to it. There is hardly a day in which the big book is not consulted. To many it is a pleasant surprise, when they discover that they are really full fledged citizens, when they thought they only had their first papers. Others have been taken aback, when they found their fathers had only taken out their first papers, or no papers at all. There have been many cases of this kind. To any one who has any doubt as to his status, County Clerk Miller is always glad to look up the records and give full information. The sooner these matters are cleared up, the better it is for each individual and the country at large.

BUSINESS MEN IN THEATRICALS.

The Chicago Herald of May 8th said: It's strange the strides business men have made in Theatrical business since they began investing in those enterprises. No longer is it looked upon as a hazardous game. A coterie of solid business men of Chicago have organized what is known as The United Play Company and have bought the western rights to a number of the leading dramatic successes and will present the plays in the leading cities of the Middle West and Coast. Some minor towns will be visited to shorten the jumps.

BIG RAIL STRIKE
IS THREATENED

Unions Vote to Call Out Employees on Harriman Lines.

THEY ALLEGE DISCRIMINATION

Seventy-Five Per Cent. of the Ballots
So Far Cast Have Been Registered in Favor of a
Walkout.

Chicago, Aug. 25.—With thousands of men eager to go on a strike which would cripple the Harriman lines of railroads, labor leaders in Chicago and other cities have made extraordinary efforts to adjust the grievances of the employees and avert the threatening walkout.

In Chicago, J. W. Kline, international president of railroad blacksmiths, arranged for a conference with Julius Kruttschnitt, vice president and general manager of the maintenance of way and equipment departments of the Union Pacific railroad, in the hope that a peace agreement could be reached.

In other cities the international presidents of sheet metal workers, boiler makers, railway carmen and machinists are meeting with representatives of the various lines.

"This is not a demand for an increase of salary," declared Kline. "It is a matter of protection for union labor. It is all due to the failure of the railroads involved to recognize our federation plan of organization."

"This federation plan, which links the unions now having grievances against the Harriman roads, was put into effect last June. Since then, I understand, those active in the movement have been discriminated against and many men have been discharged. The discontent has reached such a stage that the men will stand for it no longer."

Kline declared that he would try to arrange for a joint conference between railway officials and union leaders to be held in Chicago some day next week.

More than 4,000 shop workers employed on the lines of the Illinois Central railroad have voted by an overwhelming majority to strike unless their federation plan of organization is recognized by the company.

Of the 80 per cent. of the ballots taken, 75 per cent has been registered in favor of a strike. The voting will end today, and then negotiations will be begun with the company with a view of effecting a settlement.

A strike of stock yards teamsters probably will follow the refusal of the committee of packers to open negotiations with officials of the teamsters' union. The teamsters have asked for an increase in wages and have been refused. A meeting will be held Sunday to decide what action shall be taken.

SIX DIE IN MINE FIRE

Five Hoisted through Flames
to Safety.

Ten May Be Total of Fatalities Due
to Flames 1,200 Feet Below Ground.

Ely, Nev., Aug. 25.—Of ten men who were working at the 1,400-foot level of the new five-compartment shaft of the Groux Consolidated mine when it caught fire in the night, six are known or believed to be dead and four are near death.

The ten heard a noise which they believed was caused by an explosion. At once all boarded the cage and started for the surface, but encountered flames at the 1,200-foot level. Five left the cage and started to walk through the 1,200-foot level to the old Alpha shaft, 760 feet away. The bodies of three were found later. Two of the five are in the mine and believed to be dead.

The five who remained in the cage were hoisted through the blazing shaft. One was dead when the surface was reached.

FATHER, MOTHER
AND SON KILLED

Cold-Blooded Triple Crime near
Boonville, Indiana.

SON OF COUPLE IS ACCUSED

Youth Is Arrested and Charged by
Police with Having Slain Other
Members of Family and
Fired Their Home.

Boonville, Ind., Aug. 25.—The worst triple murder in the history of southern Indiana occurred in Boonville, in which Richard Lee and his wife were killed in their bed with a hammer, their son Clarence was shot dead and their house set on fire.

William Lee, another son, was arrested later on the charge of murdering the family. The sheriff of Warlick county took him into custody.

The house was discovered on fire at 4:30 a. m. When the firemen reached the house it was blazing from all sides. They forced an entrance through the doors and windows, which were locked, and found the incriminated bodies of Lee, his wife and the boy.

Examination of the bodies resulted in the discovery that the skulls of the father and mother had been caved in with a hammer while they were lying in bed peacefully sleeping. The seventeen-year-old boy, it was found, had been shot.

Robbery, it is believed, was the motive. It is known that the Lees, consisting of the father and mother and two children, had sold their small piece of property in Newbury and divided the money into four portions. The mother and father and younger boy took their money and went back to their home in Boonville. The older son, William Lee, who is twenty-one years old, remained in Newbury and then returned to Boonville after his family had gone to bed.

William Lee, it is stated, ran out of the home at the time of the fire fully dressed and spread the alarm. He claimed at the time of his arrest that he was awakened by the blaze and barely escaped with his life, not having had time to rescue the members of his family.

Information also came out that young Lee and his father had quarreled frequently over money matters.

Young Lee was engaged to wed Miss Nina Taylor of Newburg, daughter of a wealthy farmer, and the nuptials were to take place within a few hours. Insurance policies amounting to \$5,000 were found in the clothing of Richard Lee, the father, and his son, Clarence, both victims of the tragedy.

U. Of M. Men To Start
Medical Mission

Ann Arbor, August 25.—Six people, five of them graduates from the University of Michigan, sailed yesterday for the Mauretania from New York for England, on the way to Busrah, Arabia, where they will represent the local University Christian association in establishing a medical and industrial mission. The six people were Dr. A. K. Bennett, 1904 medic, who has been in this country on a six months' furlough from Busrah, where he already has established a hospital; Charles Shaw engineer, from New Zealand, and his wife, Adele Bayley Shaw, 11 lit., whose home was in Mason, Mich.; Philip Haynes, 11 engineer, West Indies, and Dr. and Mrs. H. G. Van Vleck, New Yorkers, the former a 1910 medic, and Mrs. Van Vleck a student in kindergarten methods at the Ypsilanti Normal.

They will stop in England long enough to secure medical and house equipment for their mission, and then push on to Arabia. They expect to arrive there by Oct. 1.

Haynes and Shaw will apply themselves principally to the sanitation of the city of Busrah, while Drs. Bennett and Van Vleck will put all their energies into the hospital work, while Mrs. Shaw and Mrs. Van Vleck will teach. All are affiliated with the Arabian Missions board of New York city.

MAN IS BURIED IN A WELL

Workers Dig Frantically to Rescue
Victim of Cave-In.

Ottumwa, Ia., Aug. 25.—Scores of workmen have been digging for hours to reach James Slutz, Grinnell college athlete and son of former Mayor Frank Slutz, who was buried by a cave-in of eighteen feet of dirt while working on the new federal building. Slutz was helping dig a well into which the water in another well, covered by the building, was to be drained. The drain pipe connecting the wells has afforded air enough to keep him alive. Speaking through the pipe, he assured the workers that he was not injured. It is believed he will soon be reached.

TWO CONVICTS
BREAK PRISON
THIS MORNING

Flint, Mich., August 25.—Ed Keister of Detroit, thought to be the man who robbed George H. Barbour of the Michigan Stove Co. of \$200, made a sensational escape from jail here with one other prisoner, at 2 a. m. today.

The other convict is John Cummings, wanted for horse stealing. There were 11 other prisoners. A posse is scouring the country for the two.

It is the most sensational jail delivery yet made here.

In order to make their get-away, the men sawed through three sets of heavy bars. One grating of bars in an air shaft 50 feet deep was sawed out while the man wielding the saw dangled on an improvised rope, hanging on with one hand while he sawed with the other.

C. M. GILLETTE RECEIVES

CHECK FOR WEEK'S

PAY ON SQUIRREL HUNT

Charles M. Gillette of Ypsilanti township is in receipt of a check of such interest that it is doubtful if he ever cares to cash it. It represents his pay for two weeks of service in the Civil War as one of the famous "Squirrel Hunters." Governor Brough of Ohio had called for 60,000 volunteers to defend the city of Cincinnati against the approach of General Kirby Smith and Mr. Gillette was one of the 15,000 or 20,000 who responded "on immediate notice." Such arms as they possessed the men carried with them, and the miscellaneous assortment thus accumulated caused the men to be called "Squirrel Hunters."

The legislature of Ohio recently voted to pay all the Squirrel Hunters, both privates and officers, one month's pay, and this came to \$13.

WELL KNOWN SCIO

She was 77 years old and is survived by two daughters and two sons, all of Scio, Mrs. Pitz, Miss Emma Stroh, and Thomas and Clifford Stroh. Funeral services will be held Saturday morning at 10 o'clock at Mrs. Pitz's home on the Dexter road.

Argyle, Minn., Aug. 25.—Eugene La Bine, a Marshall county farmer, is harvesting 500 acres of wheat with one machine, working day and night. The binder is run with eight horses, four to a shift.

A headlight is used at night. The horses used at night stand the work much better than those used in the heat of the day. La Bine predicts night reaping will become the vogue.

INDICTMENT IS
HIT BY LAWYER

Attorney for Beattie Uncovers
Technical Flaw.

SOME WITNESSES ARE HEARD

For the First Time Since His Arrest
More Than a Month Ago Beattie Slept Away from the
Richmond Jail.

Chesterfield Courthouse, Va., Aug. 25.—With the jury sequestered and witnesses for both sides subpoenaed, the trial of Henry Clay Beattie, Jr., of Richmond, indicted for wife murder, began in earnest here with the opening of the prosecution's case. It is the first anniversary of the youthful defendant's marriage to the girl he is accused of killing.

For the first time since his arrest more than a month ago, Beattie slept away from Richmond. Held for weeks in the Henrico county jail, he was brought here and placed in the little red brick lock-up fifty yards from the old courthouse.

The first witness to be called for the commonwealth was Thomas Owen, uncle of the murdered young wife, summoned to testify how Beattie brought the body to the Owen home with his story of a man in the roadway firing into his automobile and killing Mrs. Beattie.

Dr. W. F. Mercer, a physician who examined the body on the lawn of the Owen home, further established the death of the victim.

The prosecution has ready its list of more than seventy other witnesses most of whom will be used in sketching Beattie's past life and in an effort to build up a motive for the crime.

Beniah Binford, the seventeen-year-old girl said to have come between the prisoner and his wife, remains in jail at Richmond as a material witness. Her testimony probably will not be introduced until later.

A very startling move was that made by Harry J. Smith, Jr., chief counsel for Beattie and a man reckoned one of the sharpest criminal lawyers in the south, when he attacked directly the indictment under which his client rested and out of the mouths of witnesses for the commonwealth drew an issue which Judge Watson will have to decide before the question of Beattie's guilt or innocence can go before the twelve men in the jury box.

The indictment reads that Henry Clay Beattie, Jr., had fired off and ex-

PROSECUTOR WENDENBURG.

ploded a gun, causing the charge to strike the face of Louise Owen Beattie, etc., etc., but it did not say anything about the charge having been caused to go farther than the face of said Louise Owen Beattie and into her skull. On this ground Smith moved the court that all the testimony of the doctors appertaining to the hole in the murdered woman's skull be stricken out as irrelevant and immaterial. Smith then asked Coroner Loving, who happened to be on the stand and who is a physician, if he were willing to swear that a charge of shot entering the cheek of a person and no farther in the manner set forth in the indictment would be capable of causing death. Dr. Loving admitted that it probably would not. For a minute those in the court room did not realize that Beattie's lawyer had uncovered a very dangerous pitfall for the prosecution.

THIRD YEAR AT
BOGARDUS LAKE IS
CLOSED—CHANGE PLANS

The third year's summer work at Camp Bogardus on Douglass Lake, where Miss Jessie Phelps of the Normal faculty has been spending a portion of her vacation, has now closed. It is probable that a change will be made to Burt Lake another year. The U. of M. owns a tract of 1600 acres on the shores of these two lakes and a strip of land less than a quarter of a mile in width separates the two tracts.

At Douglass Lake there are black flies and the sand is very deep and it is not so easily accessible as Burt Lake, which besides possesses neither black flies nor deep sand. Burt Lake too is 14 miles long and Douglass but three and a half.

"WHAT IS SOCIALISM?"

(Continued)

Morals, Health, Justice.

"The Socialist, it will thus be seen, believes that poverty or its Capitalistic causes breed immortality, and it naturally follows that, as he considers that he has a cure for the former, so he is sure that the same cure will be efficacious against the latter. His system would end, he says, the most immoral thing in the world; it would make war. Not only that, but it would make, he asserts, no distinction between the seduced and the seducer, between the policy-player and the stock gambler, between the drunken workman in the gutter and the drunken 'good fellow' in the club. He feels sure that, while regulating it by restriction and inspection, he would reduce prostitution by securing the economic freedom of all women and by educating the politicians that now thrive upon the exploitation of prostitutes. He would, in a word, check most vice by killing all property."

"The same legal supervision would, as I have already intimated, be exercised over all matters of public health; housing, street-cleaning, drainage, infection, illness generally and working conditions. The system of direct legislation would provide almost instant attention to the physical needs of the people, and, as the last decade has supplied the fine ideals of the lawyers of the last generation by what most men of every shade of political belief admit to be a notorious class of gouging pettifoggers and concoctors of perjury, so, in the Cooperative Commonwealth, the Socialist hopes to socialize all judicial functions, maintaining them for free service at the general expense and utterly abolishing all the maze of ridiculous court fees and attorneys' charges that now tend to make any appeal to law a wound or a luxury."

LAD HOLDS POLICE AT BAY

Runs Amuck with Revolver Before Being Captured.

Grand Rapids, Mich., Aug. 25.—Clarence Bush, fourteen years old, armed himself with a revolver and awaited the arrival of officers to take him from his home because his mother feared he would kill her. Holding the officers at bay, he leaped a ten-foot fence and was captured in the downtown business district by two agile citizens after creating a small panic and threatening to shoot two more policemen.

He was immediately held to the superior court for trial under the new state law against carrying concealed weapons. His father is in a western prison.

MAKES SURE OF HIS \$100

Frankfort Man Now Faces Embezzlement Charge in Chicago.

Cadillac, Mich., Aug. 25.—George Sites of Frankfort has been taken to Chicago on a writ of habeas corpus. He was an agent in Chicago for a tea and spice company with whom he deposited, three years ago, \$100 guarantee of faithful service.

Some weeks ago he decided to come back to Michigan and each week he held back collections until he got his \$100 with interest. Then he left the company's employ. When he would not make good with the firm it caused his arrest for alleged embezzlement.

HEIRS GIVEN \$1,000 EACH

Bulk of Grand Rapids Woman's Estate Goes to Churches.

Grand Rapids, Mich., Aug. 25.—By the terms of her will just filed, Mrs. Mary Henkes bequeaths \$15,000 to the Holland churches in this city and elsewhere.

After giving \$1,000 to each of the church schools, she gives \$5,000 to the Jewish mission of Cleveland, O., which her nephew, Rev. J. R. Brink, conducts. The thirty heirs will receive but \$1,000 each.

Port Huron, Mich., Aug. 25.—An attack of heart trouble to which Frank C. Braun, aged sixty years, had been subject for a number of years, put an abrupt end to his planned trip to London, Ont. After he had eaten a hearty breakfast he arose from the table and was seen to reach for a chair. Missing it he fell to the floor, where he died within a few moments.

Bleeds to Death Under Saloon.

Cadillac, Mich., Aug. 25.—George Long, aged sixty-five years, bled to death under a local saloon. At first it was feared he had been the victim of an assault, but it is clear to the police that the theory was incorrect. Long has no family, being divorced from his wife.

Can Defy Microbes.

A doctor in Yokohama, Japan, has built himself a novel house with a view to guarding against microbes. The walls of this remarkable edifice are made of blocks of glass. They are hollow, the interiors being filled up with a solution of salts of soda, which is intended to regulate the temperature of the interior. The windows are hermetically closed, and air is only admitted after passing through filters.

The Brown Reunion.
The fourth annual reunion of the Brown family was held at the home of Mrs. Emma Brown Williams near Willis, August 23d. At noon a three-course dinner was served under a large tent on the lawn. Thirty-six guests were seated at a long table filled to overflowing. When all were seated an aged brother, Lester Brown, nearing his eighty-fifth birthday, with trembling voice returned thanks. The guests scarcely could conceal tears that would come, thinking of the two dear ones who had left since the last reunion to join a reunion of friends gone before. Guests were present from Lincoln, Neb., Pittsburg, Pa., Detroit, and Ypsilanti. No literary program was presented because the time was too short. The day was spent in a social way and one which brought to mind the early days when all were children in this old home at Locust Grove. At six o'clock ice cream and cake was again served after which thanks were tendered the host and hostess for entertaining so nicely by three hearty cheers.

EXAMS CLOSE WITH 25

PER CENT FAILURES

Ann Arbor, August 25.—Yesterday for the last time the bugbear "S and R" examinations were given in the engineering department and 35 per cent passed perfect blue books and but 25 per cent failed. There were 43 taking the examinations. There are several changes to be made in that course, and among other changes the dreaded name "S and R," or strength and resistance of materials, is to be dropped. It's an actual fact that freshmen coming to Ann Arbor commence dreading that course the day they entered the university, and even when they knew they would not get it for a year, anyway, and possibly longer. While the same work will be taught it will be taught under new supervisions, it will be differently divided, and the course will be so changed that it will not be recognized. It is hoped by the engineering heads that the old dread, which caused fully half the flunks and all the "cold feet" in the course, will be done away with by this change.
